This book is designed for use in courses on international relations or world politics. Unlike a number of such textbooks, we believe it is necessary and possible to introduce students to the literature on international relations (IR) theory. It is necessary because theory takes us beyond mere description of current events and into the realm of ...

Periodization—using key dates to bracket distinct eras of world politics—is a common conceptual device in international relations scholarship. Footnote 1 The years 1648, 1815, 1914, 1945, and 2008 carry shared meaning for international relations scholars. They conjure up the notion of “critical junctures” in which multiple aspects of ...

The term International Politics is used synonymously with the terms 'world politics' or 'global politics'. The definitions for each of these terms are often not helpful and tend to confuse a person even more. International Politics deals with the practical realities of a state's interaction with another state or several other states.

In international relations, constructivism is a social theory that asserts that significant aspects of international relations are shaped by ideational factors (which are historically and socially constructed), not simply material factors. In contrast to some other prominent IR approaches and theories (such as Realism and Rational Choice), constructivists see identities and interests of actors ...
